SPECIAL NOTICES.

All prices are quoted in United States dollars.

TERMS Net cash in advance. We cannot hold ourselves responsible for letters lost in transit.

All orders will be filled, as far as possible, on the day of receipt.

We are prepared to send selections of rare stamps and novelties on approval to collectors furnishing satisfactory references.

HOW TO ORDER. The numbers in the first column will serve to facilitate ordering from the Catalogue; thus, if you wish to order a used copy of the United States stamp listed on page 4 as "17 A1 5c bluish 85.00 50.00" your order may read as follows:

United States, No. 17 used \$50.00

thereby doing away with the necessity of long descriptions. The second column indicates the number of the illustration in the Catalogue; the third the nominal or face value, and the fourth the color of the stamp; the fifth, our price for an uncanceled specimen, and the sixth, our price for a cancelled one.

Although our stock is one of the largest in the world, it is impossible to keep on hand at all times a full supply of even the medium priced stamps. Therefore, in ordering, lists should be sent to us for at least twice the amount remitted, so that the customer may be sure of receiving goods to the full value of the remittance made. We never substitute stamps not ordered for others which may not be in stock.

DISCOUNTS.

No discount allowed on purchases of less than \$1.00.

10 per cent. discount allowed on purchases from \$1.00 to \$50.00

15 per cent. discount allowed on purchases from \$50.00 to \$125.00.

20 per cent. discount allowed on purchases from \$125.00 to \$500.00.

These discounts will apply to purchases over the counter, from "want lists" or from our approval books of the 10 per cent. grade, but they will NOT apply to current and recent issues (which are seldom priced much above cost), to sets, packets, stamps on covers and special items, nor to any of our goods other than stamps.

REMITTANCES. Please make all remittances by check, money order, postal note or express order payable to the Scott Stamp & Coin Co. Do not send coin by mail.

Orders for less than \$1.00 must contain return postage.

Purchasers are particularly requested to send name and address, clearly written or printed, with every order.

CONDITION. The prices quoted are for specimens in good condition. In most instances extra fine copies bring far higher prices. This is especially the case with such stamps as those of Mauritius, Philippine Islands, New South Wales, etc. The standard of condition, however, varies greatly in the stamps of different countries. Early United States, Saint Lucia and Victoria stamps, for instance, are, as a rule, very poorly perforated and heavily cancelled, so they cannot be expected in such fine condition as specimens from countries where more care is taken in perforating and lighter cancellations are used. Also in many instances, unused stamps with original gum are worth more than the quotations given by us for ordinary unused specimens in good condition. "Fair" copies, which may have slight defects, and actually damaged specimens, when in stock, are of course, sold for much less than average copies.

PRICES. The quotations given in this catalogue reflect the actual present condition of the market as gathered from all parts of the world; but the prices of stamps are subject to the general laws of supply and demand, and, therefore, are apt to rise or fall. As a general rule, the quotations given herein will be maintained until the appearance of our next edition, but special altered conditions may make it necessary to raise or lower our selling prices without further notice. The appearance of new issues naturally sends up the prices of the obsolete stamps. Many important price changes are published in *SCOTT'S MONTHLY JOURNAL*.

The prices in italics are tentative and represent approximate values. They are based on sales at public auction and other sources of information. The actual selling prices may be considerably affected by the condition of individual specimens or the momentary popularity of the country.

It is impossible to list and price all minor varieties, shades, etc., that exist, without making a catalogue too bulky and complicated for use by the average collector. We usually list in small type the more important minor varieties, but can furnish to specialists other varieties of shades, papers, minor types, cancellations, etc., at current market rates.

GUARANTEE. Every stamp sold by us is guaranteed as a genuine original unless specified as a reprint, proof, essay, etc.

REPRINTS. These are usually noted, where existing, although not, as a rule, priced in the catalogue. In our books of special countries for advanced collectors, reprints will be offered; but every specimen will be stamped "reprint" on the reverse. However, in no case must reprints be confounded with re-issues, as the latter are understood to be stamps which were receivable for postage.

EXAMINATION OF STAMPS. Because of the time required and the responsibility involved in examining stamps for others, we have decided to discontinue this work.

In the future, we shall decline to make expert examinations.

All stamps sold by us will receive careful examination, as heretofore, and will be guaranteed as to their genuineness. When requested to do so, we shall place our guarantee mark on any important stamp sold by us.

ABBREVIATIONS. A.—Asia; AF.—Africa; CA.—Central America; E.—Europe; NA.—North America; O.—Oceania; SA.—South America; W1.—West Indian Islands.

Where the color of a surcharge is omitted, it is understood to be black. In some cases, where necessary for more convenient arrangement, we have indicated the color of a surcharge on a stamp by a capital letter in parenthesis, thus (B). These abbreviations will be readily understood "B" indicating black, "Bl" blue, "R" red, "G" green, etc.

Whenever a stamp is printed in black on colored paper, the color of the paper alone is given in italics. Where no special color is given, it is understood that the paper is white.

"Chalky," or more properly "chalk-surfaced" paper is a distinction from "ordinary" paper, interesting chiefly to specialists. We have endeavored to inform collectors regarding the paper on which the stamps exist, either by the headings or notes.

All stamps listed in the catalogue are imperforate and unwatermarked, unless it is stated to the contrary. When a perforation or watermark is given, the description applies to all succeeding stamps until some different description appears.

OUR DOWN-TOWN BRANCH.

New York customers will please note that we have only one down-town branch, and that is located at 178 Fulton Street, opposite St. Paul's Church. No mail orders are filled at the down-town branch, but New York collectors will find there a suite of very pleasant and well lighted offices, where all our publications and supplies are carried in stock and a very large and fine assortment of stamps is always on hand.

From investigations by careful students it seems probable that Nos. 37, 38 and 39 were not regularly issued but came from trial printings. But, because there is not positive proof of this and because these imperforate varieties have long been accepted by collectors, we retain them in the catalogue.

There is also a possibility that a trial printing in black of the 30 cent stamp was sold and used for postage. A similar lack of evidence decides us to withhold recognition of this stamp.

Designs of 1873 Re-engraved.

A66

1c. The vertical lines in the upper part of the stamp have been so deepened that the background often appears to be solid. Lines of shading have been added to the upper arabesques.

A67

3c. The shading at the sides of the central oval appears only about one-half the previous width. A short horizontal dash has been cut about 1mm below the "ts" of "CENTS."

6c. On the original stamps four vertical lines can be counted from the edge of the panel to the outside of the stamp. On the re-engraved stamps there are but three lines in the same place.

10c. On the original stamps there are five vertical lines between the left side of the oval and the edge of the shield. There are only four lines on the re-engraved stamps. In the lower part of the latter, also, the horizontal lines of the background have been strengthened.

With this series the Post Office Department began issuing stamps in coils for use in vending and affixing machines. The stamps in coils are perforated on two sides only, either horizontally or vertically, and are imperforate on the other two sides. The perforation was at first 12. In 1910 the gauge was changed to 8½ and in 1914 to 10. During this period certain denominations were sold in imperforate sheets for use in the machines, the makers

of which also applied to the stamps a variety of private perforations and other forms of separation.

No. 803 was issued by the Government imperforate, but all known copies have large oblong perforations at the sides, privately applied for machine use.

Several values of the 1902 and later issues are found on an apparently coarse ribbed paper. This is caused by worn blankets on the printing press and is not a true paper variety.

HEAD OF WASHINGTON.

Design of 1908-09 Issue.

There are several types of some of the 2c and 3c stamps of this and the succeeding issues. For the benefit of specialists, we describe these types under the dates at which they first appeared. The differences between the types are usually minute and difficult to distinguish. As they do not appear to interest general collectors we do not separate them in this Catalogue. A detailed listing of the stamps

in their several types will be found in our Specialized United States Catalogue. Specialized selections can be supplied on request.

TWO CENTS.

Type I. There is one shading line in the first curve of the ribbon above the left "2" and one in the second curve of the ribbon above the right "2." The button of the toga has only a faint outline. The top line of the toga, from the button to the front of the throat is also very faint.

ENVELOPES.

Most of the differences in envelope designs are to be found in the central oval which are not permitted to be illustrated. We have illustrated as far as the law allows and have given detailed descriptions of varieties not shown.

Prices are for cut square specimens, for entire envelopes special prices will be furnished.

1853-55 Profile of Washington in oval, value above, "CENTS" below.

Many different dies and minor varieties exist of the issues of envelopes from 1853 to 1865. At the request of many general collectors we now catalogue only those dies which are most generally known. To collectors interested, we will also quote prices on any special varieties which we have in stock.

The papers of these issues also vary greatly in texture, and in color from yellowish to bluish white, and from amber to dark buff.

The surcharges on Nos. 4501 to 4507 were applied by the manufacturers, together with their initials dates, etc., thus forming a combination of surcharge and cancellation. The surcharge on No. 4508 was made by the Bureau of Engraving and Printing. After it appeared the use of the combinations was continued but only as cancellations.			

PRIVATE PROPRIETARY STAMPS.

The various papers were in use at the following dates:

Old paper, 1862-71; Silk paper, 1871-77; Pink paper, 1877-78; Wmkd. paper, 1878-83.

The experimental silk paper is a variety of the old paper and has only a very few minute fragments of fibre.

These stamps were usually torn in opening the box or container. Prices quoted are for specimens in fine condition, which may be either used or unused. Specimens in ordinary condition are worth 20 per cent. to 90 per cent. less.

Confederate States. PROVISIONAL ISSUES.

These stamps and envelopes were issued in 1861 by the postmasters of the different cities. In making the envelopes, the cancelling stamps of the post offices were frequently employed. It is often difficult to determine whether such a mark was used provisionally or merely indicates postage paid at the time the letter was deposited in the post office. Occasionally the same mark was used for both purposes. It is possible that there are other envelopes, besides those listed here, which are equally worthy of recognition.

As is usual with handstamped surcharges there are many inverted and double.

In this watermark the face of the sun is 7 mm. in diameter, the rays are heavier than in the large sun watermark of 1896-1911 and the watermarks are placed close together, so that parts of several frequently appear on one stamp. This paper was intended to be used for fiscal stamps and is usually referred to as "fiscal sun paper"

From Jan. 1st to Feb. 24th, 1884, No. 4 was used as a 5 centavos stamp but copies so used can only be distinguished when they bear dated cancellations.

The reprints show numerous spots and small defects which are not found on the originals. They are printed on gray blue, dull blue, gray green, dull orange and light magenta papers.

In the re-engraved stamps the tufts on the lion's tail are separated from the ends of the bottom tablet by one white line instead of two. The lions have a heavy, colored outline. There is a thick vertical line at the outer edge of the design on each side.

REPRINTS.

1/2 SCHILLING.

There is a dot in the upper part of the right branch of "N" of "EIN". The upper part of the shield is blank or almost blank. The horizontal bar of "H" in "HALBER" is generally defective.

1 SCHILLING.

The "1" in the corners is generally with fott. The central horizontal bar of the "E" of "EIN" is separated from the vertical branch by a black line. The "A" of "POSTMARKE" has the horizontal bar incomplete or missing. The horizontal bar of the "H" of "SCHILLING" is separated from the vertical branches by a dark line at each side, sometimes this bar is missing.

1 1/2 SCHILLING.

There is a small triangle under the right side of the tower, exactly over the "R" of "POSTMARKE". The word "SCHILLING" has a final "E" which is not the case with originals.

3 SCHILLING.

The head of the eagle is not shaded. The horizontal bar of the second "E" of "BERGEDORF" is separated from the vertical branch by a thin line. There is generally a colored dot in the lower half of the "S" of "POSTMARKE".

4 SCHILLING.

The upper part of the shield is blank or has two or three small dashes. In most of the reprints there is a diagonal dash across the wavy lines of the groundwork at the right of "I" and "E" of "VIER".

BOLIVIA, S. A.

100 CENTAVOS = 1 PESO = 1 BOLIVIANO.

Pen cancellations are common on the stamps of the earlier issues of Bolivia. They usually indicate that the stamps have been used fiscally and such stamps are worth very much less than those with postal cancellations.

Stamps of the 1894 type on thick paper were surreptitiously printed in Paris on the order of an official and without government authorization. Some of these stamps were substituted for part of a shipment of stamps on thin paper, which had been printed in London on government order. When the thick paper stamps reached Bolivia they were at first repudiated but afterwards were allowed to do postal duty. A large quantity of the thick paper stamps were fraudulently cancelled in Paris with a cancellation of heavy bars forming an oval. If copies of the thick paper stamps can be proven to have been purchased at post offices in Bolivia or to have genuine cancellations of that country they are, of course, entirely collectable.

We have no proof that the 10c in blue on thick paper was ever issued.

Nos. 35 to 43 inclusive were type-set, there being twenty-four types of each value. They were initialed before use "R. M. Ac. R. G.", bearing the initials of Robert Mather, Acting Receiver General.

Black ink was used on the rose stamps, red ink on the yellow and an alkali was used on the blue stamps, which, destroying the color of the paper, caused the initials to appear to be written in white.

Uninitialed stamps are remainders, a few sheets having been found some years ago.

Nos. 103 to 106 inclusive were type-set, twelve to a sheet, and, to prevent fraud on the government, the word "Specimen" was perforated across them before they were issued. There were two settings of the 1c and three settings of the 2c, thus there are twenty-four types of the former and thirty-six of the latter.

Nos. 11, 12, 13 and 14 are surcharged upon Panama stamps Nos. 77, 78, 79 and 81 respectively. There are several settings of the "Canal Zone" surcharge which, in addition to the words in antique type have minor varieties, such as "A" and "L" of "Canal" widely spaced, and various broken letters. The "Panama" surcharge varies in colors. The bar is either 2 or 2½mm. wide and is sometimes misplaced so that it appears at the bottom instead of the top of the stamp. In the "8 cts" surcharge there are several minor varieties of the figure "8."

8c on 50c stamps without "Canal Zone" surcharge were not issued in the Canal Zone, so far as we can learn.

139 A44	2p vermilion & black	90	80	
140 A45	5p olive green & black (1920)	2.00	60	

The engraved stamps of these types have horizontal and diagonal ruled lines in the background outside the oval. The typographed 1, 2, 4, 10, 25, 50c and 1p have only the horizontal lines.

The heads of the bi-colored stamps are engraved and the frames typographed.

No. 128a is from a new or cleaned plate. The lines are clearer than on No. 128 but the design has not been redrawn, as has been claimed. Nos. 131a and 134a are printed from new head plates which give blacker and heavier impressions. These two stamps have been termed "all typographed" but this is not correct, as the heads are engraved.

The stamps of this issue were printed in London and afterwards in Peking. The latter prints are from new plates, showing differences in the designs which are too minute for description or illustration.

The higher values of this issue are often overprinted with Chinese characters, which are the names of various postal districts. Stamps are frequently stolen while in transit to post offices. The overprints serve to protect them, since the stamps can only be used in the districts for which they are overprinted.

Types of 1913-18 Issue.

Re-engraved.

Type A29: Most of the "whitcaps" in front of the junk have been removed and the water made darker. The shading lines have been removed from the arabesques and pearls above the top inscription. The inner shadings at the top and sides of the picture have been cut away.

Type A30: The heads of rice in the side panels have a background of crossed lines instead of horizontal lines. The Temple of Heaven is strongly shaded and has a door. There are rows of pearls below the Chinese characters in the upper corners. The arabesques above the top inscription have been altered and are without shading lines.

Type A31: The curved line under the inscription at top is single instead of double. There are four vertical lines, instead of eight, at each side of the picture. The trees at the sides of the temple had foliage in the 1913-18 issue but now the branches are bare. There are numerous other alterations in the design.

The so-called Postage-Due Stamps were never issued.

The Stamps of Cochin China were superseded by those of Indo-China in 1892.

COLOMBIAN REPUBLIC, S. A.

100 CENTAVOS=1 PESO

Very few towns or districts of the Colombian Republic were supplied with handstamps for cancelling purposes and the pen cancellations do not indicate fiscal use. As far as we know no postage stamps were ever used for revenue purposes.

Fractions of many Colombian stamps of both early and late issues are found cancelled, their use to pay postage having been tolerated even when not authorized.

In 1914 the government sold a large quantity of stamps at very much less than face value. The lot included most regular issues from 1901 to 1911 inclusive, postage due stamps of 1903 and official stamps of 1901-03. These stamps were cancelled with groups of thin parallel bars. They are, of course, worth much less than our quotations which are for stamps with regular postal cancellations.

1882

1st retouch

2d retouch

The differences between the stamps of 1882 and the various retouches are as follows:

Original state: The medallion is surrounded by a heavy line of color of nearly even thickness, touching the horizontal line below the word "Cuba" (or "Filipinas", as the case may be); the opening in the hair above the temple is narrow and pointed.

First retouch: The line around the medallion is thin, except at the upper right, and does not touch the horizontal line above it; the opening in the hair is slightly wider and a trifle rounded; the lock of hair above the forehead is shaped like a broad "V" and ends in a point; there is a faint white line below it, which is not found on the stamps in the original state. Owing to wear of the plate the shape of the lock of hair and the width of the white line below it vary.

Second retouch: The opening in the hair forms a semi-circle; the lock above the forehead is nearly straight, having only a slight wave, and the white line is much broader than before.

The issues of 1892, 1894, 1895 and 1896 were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck, who held a contract for stamps with the government of Ecuador. This contract gave the right to make reprints of the stamps and such were subsequently made in some instances, as will be found noted in *italic type*. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

In July, 1902, following the theft of a quantity of stamps during a fire at Guayaquil, the Government authorized the Governors of the various provinces to hand-stamp their stocks on hand. Many varieties of these handstamps are known and others doubtless exist.

The doubtful claim of these control-marked stamps to rank as major varieties, the difficulty of distinguishing the authorized from the counterfeit and bogus, and the slight interest taken in them by collectors generally has caused us to omit the list from this catalogue, but we can supply selections at current prices to those interested.

Other control-marks were used in 1907.

No. 4 was never placed in use, owing to a change in rates after the stamps had been prepared. It was thought to make them available by surcharging them "25c" in red. The result was not satisfactory and the stamps were destroyed. It is claimed that only one copy of this essay exists.

An ungummed sheet of No. 8c was found in 1895 among the effects of M. Hulot, the printer. It was sold to M. Vervelle, by whose name the stamps are known.

Two types of the 10c differing in the shading about the figure and not distinguishable except in finely printed copies.

As originally engraved the 10c and 35c had the figures of value and the letters of "POSTES" thinner than on other stamps of the series but subsequently the lines were strengthened.

In 1917 the stamps of the 1901-07 types were printed on paper of poor quality, usually grayish and containing bits of fibre. This is termed G. C. (Grande Consommation) paper.

The Chinese characters surcharged on Nos. 18 to 31 inclusive are the Chinese equivalents of the French values and, therefore, differ on each denomination. Another printing of these stamps was made in 1904 which differs from the first one principally in the size and shape of the letters in "CHINE" particularly the "H" which is much thinner in the second printing.

Stamps of Indo-China,

Black or Red**CANTON****花銀八厘**

A second printing of the 1906 surcharges of Canton, Hoi Hao, Kouang Tcheou Wan, Mong-teeu, Packhoi, Tchong King and Yunnan Fou was made in 1908. The inks are grayish instead of full black and vermilion instead of carmine. Our prices are for the cheaper variety which, in most cases, is the second printing.

The 4 and 50c of the 1892-96 issue of Indo-China are known with the above surcharge and similarly surcharged for other cities in China. These surcharges on these two stamps are always inverted. It is stated that they were irregularly produced and were never issued.

Stamps of the 1919-20 types with parts of the design inverted, sideways, omitted, etc., are not genuine errors. They are fraudulent varieties, surreptitiously made.

There are in the market stamps of the 1919-20 issues with a five line overprint meaning "Day of the National Guard, 12, 12, 1920", and another set with four line overprint meaning "Recognition of Independence, 27, 1, 1921." It is stated that such issues were contemplated but before they were made the Russian forces occupied the country and the heads of the Georgian Government fled, taking a large quantity of stamps with them. The overprinted stamps were subsequently offered for sale. It has been stated that the overprinting was done in Italy.

The Georgian Consul at Constantinople also had stamps surcharged "Constantinople" and new values. It is not probable that a Consul had authority to make special issues of stamps and Georgia was not one of the nations to whom Turkey had granted the privilege of using their own stamps.

OFFICIAL STAMPS.

In 1920 the Official Stamps of Bavaria and Wurtemberg then current were overprinted "Deutsches Reich" and made available for official use in all parts of Germany. They were, however, used almost exclusively in the two states where they originated and we have listed them among the issues of those states.

1½s: The rosettes between the words of the inscription have a well defined open circle in the centre of the originals, while in the reprints this circle is filled up.

In the upper part of the top of the "g" of "Shilling," there is a thin vertical line which is missing in the reprints.

The two lower lines of the triangle in the upper left corner are of different thicknesses in the originals while in the reprints they are of equal thickness.

The labels at the right and left containing the inscriptions are 2½ mm. in width in the originals while they are 2½ mm. in the reprints.

1½s: The originals are printed on thinner paper than the reprints. This is easily seen by turning the stamps over, when on the originals the color and impression will clearly show through, which is not the case in the reprints.

The vertical stroke of the upper part of the "g" in Shilling is very short on the originals, scarcely crossing the top line, while in the reprints it almost touches the centre of the "g."

The lower part of the "g" of Shilling, in the originals, barely touches the inner line of the frame, in some stamps it does not touch it at all, while in the reprints the whole stroke runs into the inner line of the frame.

In 1885 the Postmaster General wished to have on sale complete sets of the stamps of Hawaii, but was unable to find either the stone from which Nos. 27 and 28, or the plate from which No. 29 was printed. He therefore sent a copy of No. 29 to the American Bank Note Company, with an order to engrave a new plate like it and print 10,000 stamps therefrom.

In December, 1885, on the delivery of the stamps, half of them (5000) were overprinted "Specimen" in blue. The original No. 29, was printed in sheets of fifteen (6x3), but the plate of these "Official Imitations" was made up of fifty stamps (10x5). Later, in 1887, the original plate from which No. 29 was printed was discovered, and, after retouching, 35,400 stamps were printed. These, like the originals, were printed in sheets of fifteen. They were delivered during 1889 and 1890, and 10,000 of them were overprinted "Reprint" at that time. In 1892 all remaining unsold in the Post Office were overprinted "Reprint".

No. 29 is red in color, and printed on very thin white wove paper. No. 50 is orange vermillion in

color, on thin yellow paper. In No. 50 the vertical line on the left hand side of the stamp and on the right of the floreate ornaments, touches the horizontal line over the label "Elua Keneta," while in the other two varieties, Nos. 29 and 51, it does not touch the horizontal line by half a millimetre. In No. 50 there are three leaflets in the spandrel above "UKU," while in Nos. 29 and 51 there are four. No. 51 is carmine in color and printed on medium thick yellow paper.

Although not made to fill a postal requirement, it is claimed that both Nos. 50 and 51 were available for postage.

Stamps surcharged with the monogram "PS" were never issued for postal use. They are either reprints or remainders to which this surcharge has been applied. Many other varieties have appeared since the stamps became obsolete. It is probable that all or nearly all of them are reprints.

Obsolete March 31, 1901.

Chamba.

The varieties with small letters in the surcharge are not listed as the letters are merely broken and not from another font of type.

Stamps of type A14 are watermarked Elephant's Head; others are watermarked Star.

It is probable that the issues of 1876, 1877 and the re-issues of the circular stamps were made to supply the demands of philatelists more than for postal needs. They were, however, available for postage.

There exists also reprints, printed in a variety of colors, on native and European thin wove paper. Collectors are warned against official imitations, which are very numerous. They are printed on several kinds of paper and in a great variety of colors.

The surcharge on Nos. 101 to 159 is handstamped and, as usual with that style of surcharge, is found inverted, double, etc., etc. In this instance there is evidence that many of the varieties were deliberately made. We regard most stamps of the issue as unnecessary and speculative.

Several other printings of the Constantinople surcharges were made in 1908. They were in various types, similar to our illustrations. All copies were retained by officials and none were sold to the public, though a few have been passed through the post. We can only regard them as a private speculation.

In the re-engraved design the wheat heads are thicker, the ornament at lower left has five points instead of four, and there are minor changes in other parts of the design.

The sheets of this and subsequent issues were usually divided in half by a single line of perforation gauging 10. Thus stamps are found with this perforation on one side.

In August 1922 a Philatelic Exhibition and Congress was held in Luxembourg, at which copies of Nos. 129 and 130, printed on laid paper and imperforate, were sold. They were not at any time on sale at post offices throughout the country, but only to ticket holders to this exhibition. This appears to be an issue for advertising purposes and not for postal needs.

It is claimed that at various times during the year 1904 there was a shortage of stamps at several places in Madagascar. To meet this shortage, stamps of 10c, 20c, 30c and 60c of Madagascar, type A7 and Diego Suarez, type A11, were cut in half and, after being affixed to letters, hand-stamped "Afranchissement—exceptionnel—(faute de timbres)" and other inscriptions of similar import. We believe these provisionals were entirely speculative and unnecessary.

These stamps were printed in sheets of twelve, four rows of three, and all differ in minor details. The "PENOE" error was No. 7 on the plate. They were in use until 1859. Early impressions show the

full background of diagonal and vertical lines; as the plate became worn the vertical lines disappeared, giving the intermediate impressions, and, finally, the lines of the background disappeared almost entirely. The paper of the early impressions is usually rather thick, that of the worn impressions is usually thin.

Prices quoted on above are for stamps without defects and with fair margins on all sides. Inferior specimens can be supplied at much lower prices, while superb copies command large premiums.

Nos. 6, 9, 10, 11 and 12 have been reprinted. The reprints of the ½ and 4r have the head of the long shape, the originals have the short head. The original ½r stamps are much worn but the reprints are unworn. The paper of the 4r is too deep and rich in color and No. 11 is printed in too bright red. The reprints of the 8r can only be told by experts. All these reprints are found in fancy colors and with surcharges and cancellations as in the 1856 issue.

The 1/2r and 8r have also been reprinted in gray on thick grayish wave paper, unwatermarked.

The stamps of the 1872 issue are found perforated with square holes, pin perf. 13, 14 or 15, and with serrate perforation.

The 1868, 12c buff, 50c and 100c (both colors) have been reprinted. The reprints are apparently from new plates. The impressions are clear and sharp and there are more lines in the shading of the face than on the original stamps. The reprints exist with both thin and thick numerals of value, imperforate and perforated and with the "Anotado" overprint.

It is stated that, in parts of Mexico occupied by the revolutionary forces, instructions were given to apply a distinguishing surcharge to all stamps found in the post offices. This surcharge was usually some arrangement or abbreviation of the words "Gobierno Constitucionalista". We list such surcharges as were specially authorized or were in general use in large sections of the country. There were numerous other hand-stamped surcharges each of which was used in one town or locality. At the best they were merely control marks and of no more significance to general collectors than similar control marks used in Ecuador in 1902-07. The fact that they were often struck in an unnecessary variety of colors and positions suggests the influence of philatelists. Eventually the use of stamps bearing any surcharges other than those we list was forbidden. For these reasons we have decided to omit them from the Catalogue.

In the stamps of 1917 the sky is indicated by ruled lines, in 1923 it is made of minute dots. In the 1917 issue the tablets in the upper corners and at bottom have lines in the backgrounds, in 1923 the backgrounds are of solid color.

The official stamps became obsolete on December 31, 1894. In August, 1895, sets of 32 varieties of "O. S." stamps, together with some envelopes and postal cards, were placed on sale at the Sydney post office at £2 per set. These sets contained most of the varieties listed above and a few which are not known in the original issues. An obliteration consisting of the letters G. P. O. or N. S. W. in three concentric ovals was lightly applied to the centre of each block of four stamps. It is understood that the earlier stamps and many of the surcharges were reprinted to make up these sets.

The margins of the sheets are watermarked "NEW ZEALAND POSTAGE" and parts of the letters of these words are frequently found on the stamps. It occasionally happens that a stamp shows no watermark whatever.

In 1907 a quantity of the 1p carmine were surcharged "King Edward VII Land" and taken on an expedition to the Antarctic regions. As the only place where these stamps could be used was an alleged post-office, established principally to give color to their issue, and as they were never sold to the public we do not catalogue them.

Similar remarks will apply to the 1p carmine surcharged "Victoria Land."

The engraved stamps have a background of geometric lathe-work; the typographical stamps have a background of crossed dotted lines.

Type A43 has three diamonds at each side of the crown, type A46 has two, and type A47 has one.

In 1916 the ½, 2, 3 and 6p of the 1915-16 issue and the 8p of the 1909 issue were printed on paper intended for the long rectangular stamps of the 1902-07 issue. In this paper the watermarks are set wide apart, so that the smaller stamps often show only a small part of the watermark or miss it altogether.

The issues of 1890 to 1899 inclusive were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck who held a contract for stamps with the Government of Nicaragua. This contract gave the right to make reprints of the stamps and such were subsequently made of the issues of 1896, 1897 and 1898, postage, postage due and official stamps, as specified in the notes in italic type following those issues. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

In 1904 a series with surcharge as above except that "Centavos" was spelled out in full, was made to fill a dealer's order. So far as we are aware, none of them were ever used postally. We therefore omit them. About the same time the 2c vermilion of the 1900 issue was surcharged "1 cent" and "1901" "1902" or "1904" in blue. This also was done to fill a dealer's order and none of the stamps were regularly issued or used.

These surcharges are in settings of twenty. We separate them into small and large figures but there are many other varieties, due to type and arrangement. There are two types of the surcharge on the face of the stamps, one having the word "TIMBRE FISCAL" in capital letters and the other with initial capitals only. Some sheets of the 2c have the new value surcharged on the face in olive yellow, black or red, as well as on the back in black. Nos. 281 to 286 are known with "Timbre Fiscal" on both face and back.

The stamps are intended to provide a fund for rebuilding the General Post Office which was burned in April, 1921, and one must be used on each letter or parcel, in addition to the regular postage. In the setting of one hundred there are five stamps with antique "C" and twenty-one with "R" and "C" smaller than in the illustration.

These surcharges are set up to cover twenty-five stamps. Some of the settings have bars or pieces of fancy border type below "OFICIAL". There are five varieties on No. 913, three on No. 914, and one each on Nos. 915, 916 and 917.

In 1904 No. 914 was reprinted to fill a dealers order. This printing lacks the small figure at the upper right. It includes the variety "OFICIAL". At the same time the same setting was printed in carmine on official stamps of 1900, 1c on 10c violet and 2c on 1p ultramarine. Also the 1, 2 and 5 pesos official stamps of 1900 were surcharged with new values and the dates 1901 or 1902 in various colors, inverted, etc. It is doubtful if any of these varieties were ever in Nicaragua and certain that none of them ever did legitimate postal duty.

There were several settings of these surcharges, some of which are scarcer than others. In the first setting the periods were on a line with the bottoms of the letters "V, R, I." In the subsequent settings the normal position of the periods was above the line of the letters, though there were many variations in the positions of one or more of them.

The 1p brown and 1sh orange of the 1868 issue were surcharged in error but were not regularly issued, though a few copies got out in some way.

These stamps have been reprinted in a number of shades, on thin to moderately thick, white or yellowish paper. They are without gum or with white, crackly gum. Some of the 50c stamps appear to have been reprinted from the original stone; they are all in a golden yellow shade, less brownish than the orange originals. All values have been reprinted from new stones made from retouched dies. The marks of retouching are plainly to be seen in the sea and clouds. On the original 10c the shield in the upper left corner has two blank sections; on the reprints the design of this shield is completed. The impression of these reprints is frequently blurred.

----	----	-----------	------	------

The stamps of this issue have been reprinted on papers of slightly different colors from those of the originals. These are: 1c yellow green, 2c deep rose, 5c bright blue, 10c straw, 20c violet. The 50c is printed from a very worn stone, in a lighter brown than the originals. The series includes a 10c on lilac paper. All these stamps are to be found perforated, imperforate, imperforate horizontally or imperforate vertically. At the same time that they were made, impressions were struck upon a variety of glazed and surface-colored papers.

This surcharge has been reprinted in brown rose on the 1, 5, 20 and 50c, in purple on the 1, 2, 50c and 1p, and in magenta on the 5, 20 and 50c. Reprints were also made in rose and black when the hand-stamp was nearly worn out, so that the "R" of "REPUBLICA" appears to be shorter than usual, and the bottom part of "LP" has been broken off. The "P" of "PANAMA" leans to the left and the tops of "NA" are broken. Many of these varieties are found inverted, double, etc. The reprints have been used to pay postage.

This surcharge was set up to cover fifty stamps. "PANAMA" is normally 13mm. long and 13mm. high but, in two rows in each sheet, it measures 15 to 16mm. This word may be found with one or more of the letters taller than usual; with one, two or three inverted "V's" instead of "A's"; with an inverted "Y" instead of "A"; an inverted "N"; an "A" with accent; and a fancy "P". Owing to misplaced impressions, stamps exist with "PANAMA" once only, twice on one side, or three times.

Setting "c" appears to be a re-arrangement (or two very similar re-arrangements) of setting "b". The surcharge covers fifty stamps. "PANAMA" usually reads upward but sheets of the 1, 2 and 20c exist with the word reading upward on one half the sheet and downward on the other half. In one re-arrangement one stamp in fifty has the word reading in both directions. Nearly all the varieties of setting "b" are repeated in setting "c" excepting the inverted "Y" and fancy "P". There are also additional varieties of large letters and "PANAMA" occasionally has an "A" missing or inverted. There are misplaced impressions, as of setting "b".

This surcharge is also set up to cover fifty stamps. One stamp in each fifty has "PANAMA" reading upward at both sides. Another has the word reading downward at both sides, a third has an inverted "V" in place of the last "A" and a fourth has a small thick "N". In a resetting all these varieties are corrected except the inverted "V". There are misplaced surcharges as before.

Later printings show other varieties and have the bar $2\frac{1}{2}$ instead of 2mm. wide. The colors of the various printings of Nos. 76 to 82 range from carmine to almost pink.

No. 83 was never placed in use.

The 20c violet and 50c bistre brown exist with bar $2\frac{1}{2}$ mm. wide, including the error "PAMANA", but are not known to have been issued. Some copies have been cancelled "to oblige".

Reprints:

1875 and 1876 issues.

The reprints of the 1sk and 1kr stamps are readily told; the pearls of the circle are heavier, the borders of the circles containing the Persian numeral of value are wider and the figure "1" below the lion is always Roman.

The reprints of the 2 shahi have the outer line of the frame at the left and at the bottom broken and on some specimens entirely missing.

The only distinguishing mark by which to tell the 4 shahi and 4 kran stamps is the frame, the outer line of which is of the same thickness as the inner line, while on the originals the inner line is very thin and the outer line thick; another feature of some of the reprints is a break in the ornament in the lower part of the circle below the figure "4".

In the reprints of the 8 shahi stamps the small scroll nearest to the circles with Persian numerals at the bottom of the stamp touches the frame below it; the inner and outer lines of the frame are of equal thickness, while in the originals the outer line is much heavier than the inner one.

All reprints are found cancelled to order.

Nos. 33 and 34 are printed from re-engraved clichés. They have wide colorless circles around the corner numerals.

The reprints of the 1 kran and 1 toman are printed from the same die as the reprints of the 1 shahi and 1 kran of the 1876 issue; on these and on the reprints of the 5 krans the outer frame is of irregular thickness. The impression of the reprints of this issue is better than that of the originals.

The post office at Meshed having exhausted its stock of stamps the postmaster issued the above series provisionally. The centre of the design is the seal of the postmaster who also wrote the value, in Arabic MSS., upon the upper part, using black ink for the 1 kran and red ink for the other values.

Imperf.**TWO TYPES:**

Type I. "CHAH" is in capital letters.

Type II. Only the initial letter of "Chah" is in a capital.

The 3c and 5c sometimes have a tall narrow figure in the upper left corner. The 5c is also found with the cross at the upper left broken or missing. These varieties are known with many of the overprints that were applied to type A25.

The reprints of the 2c are printed on a whiter and thinner paper than the originals, which are on a thick yellowish white paper. The embossing of the reprints is much sharper and the printing has been done more carefully. On the originals the frame line at the left is thinner than on the other sides. The reprints have the frame of equal thickness on all four sides.

Reprints were made in 1884. The over-print is from a new die in which the word "PLATA" is 3 mm. high instead of 2½ mm. The cross bars of the letters "A" of that word are set higher than on the original die. The 5c is printed in blue instead of ultramarine.

For differences between the original and the re-engraved stamps see note on the 1883-86 issue of Cuba. In the Philippines, however, the second re-engraving does not have the opening in the hair as rounded as on the same stamps of Cuba and Porto Rico. It is more like the first re-engraving but the lock of hair is less pointed and has a broader white line below it.

Issues of the Republic.

Local issues were made in various Polish cities during the German occupation. In the early months of the Republic many issues were made by surcharging the German occupation stamps with the words "Pocztą Polska" and an eagle or bars, often with the name of the city. So far as we can learn these issues were not authorized by the Government but were made by the local authorities and restricted to local use. In 1916 a series of stamps was issued for the Polish Legion and in 1917-18 the Polish Expeditionary Force is said to have used surcharged Russian stamps. The regularity of these issues is questioned.

		green	100.00	17.50
		a. 50r blue green		17.50
4	A4	100r lilac	250.00	45.00

The stamps of the 1853 issue were reprinted in 1864, 1886 and 1905. Many stamps of subsequent issues were reprinted at the last two dates. The reprints of 1864 are on thin white paper with white gum. The originals have brownish gum which often stains the paper. The reprints of 1886 are on a stout, very white paper. They are usually ungummed, but occasionally have a white gum with yellowish spots. The reprints of 1905 are on creamy white paper of ordinary quality with shiny white gum.

When perforated the reprints of 1886 have a rather rough perforation $13\frac{1}{2}$ with small holes; those of 1905 have a clean cut perforation $13\frac{1}{2}$ with large holes making sharp pointed teeth.

The colors of the reprints usually differ from those of the originals, but comparison is necessary for this feature.

The reprints are often from new dies which differ slightly from those used for the originals.

5 reis: There is a defect in the neck which makes the Adam's apple appear very large in the first reprint. The later ones can be distinguished by the paper and the shades and by the absence of the pendant curl.

25 reis: The burelage of the ground work in the original is sharp and clear, while in the 1864 reprints it is blurred in several places; the upper and lower right hand corners are very thick and blurred. The central oval is less than $\frac{1}{2}$ mm. from the frame at the sides in the originals and fully $\frac{3}{4}$ mm. in the 1886 and 1905 reprints.

50 reis: In the reprints of 1864 and 1886 there is a small break in the upper right hand diagonal line of the frame, and the initials of the engraver (F. B. F.), which in the originals are plainly discernible in the lower part of the bust, do not show. The reprints of 1905 have not the break in the frame and the initials are distinct.

100 reis: The small vertical lines at top and bottom at each side of the frame are heavier in the reprints of 1864 than in the originals. The reprints of 1886 and 1905 can only be distinguished by the paper, gum and shades.

The 5r dark brown, formerly listed and sold at about \$1.00, is now believed by the best authorities to be a reprint made before 1866. It is printed on thin yellowish white paper with yellowish white gum and is only known unused. The same remarks will apply to a 25r blue which is common unused but not known used. It is printed from a die which was not used for the issued stamps but the differences are slight and can only be told by expert comparison.

Nos. 9 and 10, also 10a in rose, were reprinted in 1886 and Nos. 9, 10, 10a and 11 in 1905.

This issue was manipulated by a syndicate of employees of the Post Office who had the privilege of buying all remainders at a large discount from face values. The time of sale was so arranged that the public had only half a day in which to purchase the stamps. They were sent to only a few cities and complete sets were not obtainable anywhere.

These stamps have been reprinted several times. The reprints usually resemble the originals in the color of the paper but there are impressions on incorrect colors and also in colors on white paper. They often show broken letters and other injuries. The Y shaped ornaments between the small circles in the corners are broken and blurred and the dots outside the circles are often missing or joined to the circles.

These stamps were superseded by those of Sardinia in 1859.

The stamps of the 1862 and 1868 issues have been reprinted; these reprints are very well executed, and it is very difficult to distinguish them from the originals. Most of the perforated reprints gauge 11½.

The Roman States stamps were superseded by those of Italy in 1870.

Nos. 11 to 18 inclusive have usually been described
as "hand-stamped". The impressions are, however,
much too fine and clear for hand-stamps. The
stamps were apparently printed with a hand press,
one at a time, from single dies. The impressions
were very irregularly placed and occasionally over-
lapped. Such sheets as we have seen contained
thirty-two stamps in four rows of eight. The third
and fourth rows were printed inverted, thus making
the second and third rows tête bêche, foot to foot.

Typographed from Plates.

The stamps of the 1862 and 1863 issues can usually be distinguished by the colors. In the 1862 issue the 3pa and 6pa are often blurred and appear greasy; the 30pa are usually clearly printed. The 30pa of 1863 usually has a large dot at the left of the eagle's crown.

The plates for the 1863 issue contained forty clichés in five rows of eight. The first and second rows were inverted. The clichés in the third row were placed sideways, four with head to the right and four with head to the left, making one tête bêche pair. The fourth and fifth rows were in normal position.

The "Timbru de Ajutor" stamps represent a war tax on postal matter. The money obtained from their sale was turned into a fund for the assistance of soldiers' families.

Until 1923 the only "Timbru de Ajutor" stamps used for postal purposes were the 5b and 10b. Stamps of higher values with this inscription were used to pay the taxes on railway and theatre tickets and other fiscal taxes. In 1923 the postal rate was advanced to 25b.

In 1905 remainders of these stamps were sold by the postal officials. They are cancelled with bars, arranged in the shape of diamonds, in purple ink. No such cancellation was ever used in the Island and the stamps so cancelled are of no philatelic value. Collectors are warned against these stamps, from which the cancellations have been removed.

The issues of 1890 to 1898 inclusive were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck, who held a contract for stamps with the government of Salvador. This contract gave the right to make reprints of the stamps and such were subsequently made in some instances, as will be found noted in italic type. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

The 1p frequently has a period after the word "PENNY."

The 2p was never placed in use.

Imperforate stamps of this issue are printer's waste.

The sheets of the first issue were not perforated around the outer sides. All values except the 2p were printed in sheets of ten, two rows of five. The 1p, 3p and 6p type I and the 1p type III were also printed in sheets of twenty, four rows of five, and six stamps on each of these sheets were perforated all around. The 2p was printed in sheets of twenty one, three rows of seven, and five stamps in the second row were perforated all around.

These are the only varieties of the original stamps which have not one or two imperforate edges.

The reprints are all of type III and are nearly always perforated on all sides. They have a spot of color at the edge of the panel below the "M" of "SAMOA" which is not found on any originals except the 2p, which may be distinguished by its color, and the 9p which may be distinguished by having a rough blind perforation 12.

In 1911 No. 48 appeared on yellowish tinted paper and measuring about 4mm. more in width than hitherto. It was stated that the stamp had been re-engraved. We do not find any changes in the design and believe the slight difference in size is due to the new paper not shrinking as much after printing as the old.

The re-drawn design of the satang stamps varies in numerous minute details from the 1912 issue. Four lines of the background appear between the vertical strokes of the "M" of "SIAM" in the 1912 issue and only three lines in the 1917 stamps.

The 1912 stamps with value in bahts are 37½ mm. high; those of 1917 are 39 mm. In the latter the king's features, especially the eyes and mouth, are more distinct and the uniform and decorations are more sharply defined.

These stamps were reprinted three times in 1881 and once in 1887. The originals have 23 white lines and dots in the lower right spandrel. They are thin and of even width and spacing. The first reprint has 17 to 20 lines in the spandrel, most of them thick and of irregular width and length. The second and third reprints have 21 very thin lines, the second from the bottom being almost invisible. In the fourth reprint the lower right spandrel is an almost solid spot of color.

Originals of type A1 have the curved line above "ESPAÑA" broken at the left of the "E." All reprints of this type have the curved line continuous.

The reprints exist in various shades of blue, rose, red, violet and black.

The re-engraved 2p measures 33½x25mm. instead of 32½x24½mm. There are many slight changes in the clouds and other parts of the design.

The 4p is much lighter, especially the waterfall and the trees above it. This has more the appearance of a new or cleaned plate than a re-engraved one.

In the re-engraved 6p there are more colored lines in the waterfall and the river and more white dots in the trees.

Numerous trial impressions of the stamps of types A1 and A2 exist in both the accepted and fancy colors, including the 3p imperforate and tête bêche as formerly listed. Some of them are from the original plates but the majority are from small experimental plates. Many of them can only be told from the issued stamps by expert comparison.

There are reprints of the 6p, type A2, in duller shades than the originals.

The so-called reprints of type A1 were made from new plates. They have the design slightly altered, the most notable difference being in the head of the eagle which has the beak open and hooked like a parrot's.

The 3p stamps have been reprinted from a small plate of sixteen stamps made from a duplicate of the original die. The stamps from this plate show numerous small flaws and defects.

The reprints of No. 120 are in dull orange-red. The impression is usually clearer than that of the originals and the gum is yellowish white.

The reprints of No. 121 are in brownish black on bright rose, while the originals are in gray black on lilac rose.

The so-called reprints of the 1p, 1sh, and a companion 6p of Type A1 are from the counterfeit plates described under the first issue.

The setting consisted of twelve stamps of type A18, six of type A19, and six of type A20. The first printings were of the ½p, 1p, 4p and 6p stamps and contained many errors of spelling, punctuation, etc. Many of these errors were corrected in the later printings, which comprised all the denominations of the series. On the 4p stamps of the first printing the initials of the Controller were written in black ink. On subsequent printings they were in red. Black ink was always used for all the other denominations.

Reprints were made in 1893 and some values have been reprinted twice since then. The shades usually differ from those of the originals and some reprints have white gum instead of grayish. All values except the 15c and 40c have been reprinted from retouched designs, having a background of horizontal ruled lines.

Regular postage stamps perforated with holes in the form of a "T", the holes varying in size and number, were used as postage due stamps from 1888 to 1901. We no longer catalogue any stamps punctured in this manner.

It is stated that by the decrees mentioned these stamps were made "postage and revenue" stamps. They were the only stamps available for postage in Venezuela from March, 1871 to August, 1873.

Only a few of the larger cities had cancelling stamps at this period and the majority of specimens were cancelled with pen marks. Fiscal cancellations were also made with the pen. Our prices are for pen-cancelled copies.

Stamps inscribed "Escuelas" or "Instruccion" have been allowed to do postal service but they are primarily revenue stamps. Postally cancelled copies are extremely scarce. Our prices are for stamps with cancellations of banks or business houses or with pen cancellations. Collectors are warned against copies with pen marks removed, that are offered as unused stamps or with fraudulent postal cancellations.

Nos. 180 to 213 were issued by a group of revolutionists for speculative purposes but they appear to have had a limited local use.

Reprints have been made in large quantities. They are from new plates showing alterations in the designs and borders. The names of various states and districts are included in the settings or surcharged on the stamps. Errors of color, etc. are provided. The control mark is from a new handstamp and many of the stamps are cancelled "to oblige" with a different cancellation from that used on the original stamps.

The 50c with centre in blue was never issued although copies were postmarked by favor.

There were two printings of most denominations of this issue. In the first the centres were separately printed and often vary in shade from the rest of the design. In the second the entire design was printed at one time.

The re-engraved stamps have two berries instead of one at top of the left spray; a berry has been added over the "C" and "S" of "Centimos"; and the lowest leaf at the right is cut by the corner square.

The four letters in the surcharge are the initials of Russian words equivalent to "Western Ukrainian National (or Peoples) Republic." The country was formed from Bukovina and the eastern part of Galicia, formerly provinces of the Austro-Hungarian Empire. The best available information is that Ukraina and Western Ukraina were separate and independent governments.

Approval Department Service

IMPORTANT NOTICE

After a thorough study of our sets, dime sets and packets and a careful comparison with our 50% and 25% discount approval sheets we have found that practically every want of the users of these sheets can be satisfied, **AT A LOWER COST TO THE BUYER, BY PURCHASE OF SETS, DIME SETS OR PACKETS.**

For instance, whereas the largest discount on our regular approval sheets was 50%, many of the sets and dime sets are priced from 60% to sometimes 90% discount from catalogue prices, while in most cases the packets are offered at around 80% discount. Furthermore, the purchase of sets will give completeness while the approvals offered only a scattered representation. The new enlarged list of sets and packets also offers an infinitely larger assortment than it was possible to submit through the discontinued sheets.

The dropping of these sheets from our line will in no way be understood as a discontinuance of our approval department. We shall merely be able to devote more time and attention to the preparing of our
